NAVIGATING THROUGH eGRANTS

Work can be saved in eGrants using the Save Only / Save and Continue buttons or using the edit icons shown below.

The eGrants system uses the following icons:
- Expand List
- Collapse List
- Add Item
- Edit
- Cancel Edits
- Delete
- Save (When this icon appears, save your work or it will be lost.)
- Help

Used on the Budget Tab to create and edit budget line items

Used on the Activities and Measures Tab to enter and save data in to the appropriate fields

Notes Box (bottom of each tab):
To view all Notes on the grant, go to the Summary/Grant.Issues tab. The Notes feature is used for multiple purposes:
1. During application review, the Grant Manager (GM) may use this box to type a question or describe an item needing correction;
2. Provide decisions regarding eligibility/allowability of activities or costs;
3. Document changes made to entries on the tab; or
4. An area for applicant’s to respond to inquiries made by the GM.

The eGrants Notes boxes are not the most effective method of communicating with a PSO GM when you are seeking technical assistance or in need of prompt information. GM’s do not receive notification when Notes are entered and will not see your note until the next time they open your application. A more effective method for routine communications is to send an email to the GM.

Project Narrative

Project Summary

[Briefly summarize the proposed project.]

Problem Statement

[Describe the nature and scope of the underlying problem the proposed project will address.]

Existing Capability Levels

[Describe the existing capability levels, including resources in place to support the proposed project prior to the use of grant funds.]

Capability Gaps

[Describe the capability gaps that will be addressed by the proposed project.]

Impact Statement

[Describe the project objectives and how the project will maintain capabilities and reduce capability gaps.]

Homeland Security Priority Action

[Identify the Texas Homeland Security Priority Action most closely aligned with the propose project.]

Target Group

[Identify the target group and population to benefit from the propose project.]

Long-Term Approach

[Describe how the applicant agency will sustain the capabilities supported by the project without additional federal or state funds.]
Select the activity(ies) that best fit the proposed project. Click the “Update Activity Selection” button to populate the Detailed Project Activity Area shown below.

A description of the activities will display in a table grid by clicking this button.

Select ONLY ONE (1) project activity.

NOTE: eGrants will allow multiple selections, but HSGP projects must fit into one and only one activity under the “Activity List”

Click the pencil icon next to each activity to enter the percentage of time spent on the activity as well as a brief description of how the activity is performed. Click on the 'diskette' icon to save the information entered for each activity.
The OOG-Defined Output and Outcome Performance Measures are populated based on the activities selected on the Activities tab.

If this tab is blank, first check that an Activity was selected on the Activities tab.
If an Activity is selected and Measures are still blank, it is possible this funding opportunity does not require measures.
If a particular measure does not apply, enter zero (0) for the target number.
When determining the appropriate target level consider the requested amount and project period.
Creating Budget Line Items (BLI)

- The Budget is organized by Budget Category, Budget Sub-Category, and Budget Line Item. Each funding opportunity is preloaded with a list of allowable budget line items.
- Each budget line item is saved individually on this tab.

**NOTE**

The radio button defaults to the first BLI in the list, and the Sub-Category and BLI are separated by an asterisk.
Positions listed in Personnel must be employees (current/future) of the applicant agency, not contractors or positions within another organization.

**Line Item Descriptions must include:**
- Position Title
- Full-time/part-time status
- Time period/date range
- Description of duties or tasks related to the grant
- Unique Identifier (if multiple positions) i.e. #1, #2

**Overtime.**
- Overtime must be a separate line-item from salary
- Percentage of salary should be listed as 100%
- Overtime can be grouped by activity with multiple individuals

**Common Issues**
- The description(s) lack detail and/or information that would help the OOG determine if the cost is reasonable or necessary to achieve the proposed project activities.
Contractual and Professional Services include services and assistance obtained from other organizations to support the project scope of work.

**Line Item Descriptions must include:**

- A detailed description of services in order to link the service being provided to the grant activity.
- How the payment for services is calculated (NOTE: contract costs should be pro-rated to fit within the grant period).
- Line items must be separated by vendor or contract/service.

**Common Issues**

- Not enough information on the purpose of the contract
- Direct Operating Expenses placed in this area
- Personnel/employees of the Grantee placed in this budget category
This category is for travel/training costs for Grantee Agency Personnel only. Costs for non-agency personnel should be placed under operating expenses or contractual, as applicable.

**Line Item Descriptions must include:**
- Conference name, dates, and/or location of travel (if known)
- Number of personnel traveling
- Other detail to help convey the cost budgeted is reasonable and necessary (i.e. number of days/nights for lodging, per diem, estimated trip cost per person, etc)
- Out-Of-State Travel Justification (if applicable)
- Applicants should use two separate line items for training registration/course fees and mileage/incidental costs

**HSGP (HS) and NSGP (NP) Applications ONLY:**
- When a line item includes any training, a GM will place a special Training Review Condition hold on the item. This hold requires the Applicant to submit a Training Review form and receive approval prior to attending training. (NOTE: Applicants should use two separate line items for registration/course fees and mileage/incidental costs.)

**Common Issues**
- Line item descriptions do not contain enough information to determine the reasonableness or benefit of the travel/training.
**EQUIPMENT – BUDGET/DETAILS TAB**

Equipment is tangible personal property having a useful life of more than one year and a per-unit acquisition cost that equals or exceeds the lesser of the capitalization level established by the applicant agency, or $5,000. Items that are considered **Controlled Assets** (as identified by the Comptroller’s Office) and radios must also be listed under Equipment.

**Line Item Descriptions must include:**
- Detailed equipment description to easily understand what the item is and how it benefits the overall project
- Per Unit Cost

**Unit:**
- The quantity (number of units to be purchased with OOG and Matching Funds) must go in the Unit field of the line item.

---

**Common Issues**

- Line item descriptions do not contain the per unit costs.
- The equipment cannot be tied back to the purpose of the project.

---

**Common Issues**

- Line item descriptions do not contain the per unit costs.
- The equipment cannot be tied back to the purpose of the project.
SUPPLIES AND DIRECT OPERATING EXPENSES – BUDGET/DETAILS TAB

Supplies are tangible personal property valued less than $5,000. NOTE: The State of Texas recognizes computing devices that exceed $499 as Equipment NOT a Supply.

Direct Operating Expenses include other direct costs such as leases for space, rental costs, project supplies, advertising costs for staff vacancies, etc.

**Line Item Descriptions must include:**

- Detailed description of the supply or direct operating expenses to easily understand what the item is and how it benefits the overall project
- Quantities for items in this budget area should be included in the line item description if applicable or known
- Costs for rent shall include the cost per square foot and the number of square feet used for the project

**Common Issues**

- Line item descriptions do not contain the quantity or per unit costs.
- The supply item cannot be tied back to the purpose of the project.
Indirect costs are costs without a direct link to a single project or activity. These are frequently aggregated into an overhead cost pool and allocated to various activities.

**Rate Information:**
- Indirect costs must include the Applicant’s indirect rate as established by their cognizant agency for indirect costs.
- Applicants that have negotiated an Indirect Cost Rate shall upload to the grant record a copy of the letter from the cognizant agency that states the approved rate.

**De Minimis**
The applicant may elect to charge a De Minimis rate of 10% of modified total direct costs (MTDC). Applicants using the De Minimis rate must confirm that they do not have an approved indirect cost rate AND they are NOT a state, local government, or Native American tribe receiving over $35 million in direct federal funding. More information on how to calculate the De Minimis rate can be found in the PSO’s Guide to Grants.

**Common Issues**
- The approved Indirect Cost Rate letter is not uploaded to eGrants.
- The approved indirect rate is not listed in the line item description.
- The De Minimis rate is not calculated from the correct MTDC.
FEMA requires states to track expenditures at a detailed level, including within the following categories referred to as “POETE”:

- Planning costs
- Organization costs
- Equipment costs
- Training costs
- Exercise costs

Applicants must also classify budgeted costs within each POETE category to a Solution Area and identify the Disciplines associated with those costs. If an Applicant needs assistance, they are encouraged to contact their Grant Manager.

The total budgeted for each POETE Grouping must be distributed among the Solution Area Subcategories for that Grouping. Totals for each Solution Area must reconcile back to the POETE Grouping total from the budget.

The total budgeted must also be distributed among the Discipline areas (such as Cyber Security, Emergency Management, Public Works, etc.). The Discipline total must reconcile back to the total budgeted amount.
If match is included in the budget detail, then the source of that match must be entered on the Source.of.Match tab.

**Required Information:**
- Description of the Match
- The amount of match for that source
- Whether match is Cash Match or In Kind Match

**NOTE**
- The amount of Cash and In Kind match must equal the amounts in the Budget Detail.
- Federal funds from other sources CANNOT be used to meet PSO matching funds requirements.

**IMPORTANT:** Each unique source of matching funds must be entered as a separate item on the Budget/Source.of.Match tab.
Resolution from Governing Body

Applications from nonprofit corporations, local units of government, and other political subdivisions must include a resolution that contains the following:
1. Authorization by your governing body for the submission of the application to the Public Safety Office (PSO) that clearly identifies the name of the project for which funding is requested;
2. A commitment to provide all applicable matching funds;
3. A designation of the name(s) and/or title of an authorized official who is given the authority to apply for, accept, reject, alter, or terminate a grant (Note: If a name is not provided, you must update the PSO should the official change during the grant period); and
4. A written assurance that, in the event of loss or misuse of grant funds, the governing body will return all funds to PSO.

Upon approval from your agency’s governing body, upload the approved resolution to eGrants by clicking on the Upload Files sub-tab located in the Summary tab.
